“

Our success is measured not only by what we produce, but by the trust we earn and the relationships we build.

”

# MESSAGE FROM THE CHAIRMAN

Since our journey began in 2008, **Bellissima Group** has evolved through challenges, opportunities and continuous learning. Every milestone has strengthened our belief that sustainable success is built on quality, integrity, people and long-term relationships.

Today, our capabilities extend across woven and denim garment manufacturing, product development, and washing & finishing—enabling us to provide our buyers with a more integrated and dependable manufacturing solution.

Our vision is not simply to grow in capacity, but to continuously improve how we create value—through responsible manufacturing, skilled people, modern technology, consistent quality and reliable execution.

We deeply value the trust of our buyers, partners and employees. As we move forward, we remain committed to building lasting partnerships and delivering products that meet global expectations while creating a positive impact on people, process and the planet.

*Sarwar Zaman*

**Sarwar Zaman**

Chairman  
Bellissima Group

## OUR PEOPLE

Our greatest strength and the driving force behind every achievement.

## QUALITY FIRST

Committed to quality at every stage of our operations.

## PARTNERSHIP

We believe in transparency, respect and long-term partnerships.

## RESPONSIBILITY

We care for our people, our community and the environment.

## CONTINUOUS GROWTH

We invest in innovation and improvement for a better tomorrow.

# COMPANY OVERVIEW

THREE UNITS. ONE VISION. END-TO-END MANUFACTURING EXCELLENCE.

## ESTABLISHED IN 2008

Bellissima Apparels Limited is a core manufacturing unit of Bellissima Group, combining **15+ years of expertise** in woven garment manufacturing with comprehensive in-house garment laundry and finishing capabilities.

## INTEGRATED MANUFACTURING

Our integrated operation gives international buyers the advantage of managing garment construction, washing, finishing and quality control **under one platform**.

## DENIM, TWILL & WOVEN EXPERTISE

With strong expertise in **denim, twill and washed woven garments**, our laundry team specializes in developing and executing a wide range of fashion washes, garment effects, dyeing and finishing techniques, from development and sampling through to bulk production.

## WIDE RANGE OF WASH & FINISHING CAPABILITIES

Our capabilities include **enzyme, stone, bleach, tint, garment dyeing, PP spray, resin, softening** and a variety of specialized wash and finishing effects, allowing us to translate buyer concepts into commercially consistent garments.

## PEOPLE, QUALITY & COMMITMENT

Backed by experienced management, skilled technical teams, modern machinery and structured quality systems, Bellissima delivers **creative wash development, consistent quality, competitive value and reliable on-time delivery**.

FABRICS  
PEOPLE  
POSSIBILITIES

WE TURN FABRICS  
INTO FASHION

**QUALITY**  
Committed to  
international standards

**INNOVATION**  
Turning ideas  
into value

**SUSTAINABILITY**  
For a better tomorrow.

**GROWTH**  
Stronger together.

# OUR JOURNEY OF GROWTH & EXCELLENCE

2008 TO 2026 – A JOURNEY OF VISION, PASSION AND COMMITMENT

From a small beginning in 2008 to becoming an integrated garment manufacturing group across three specialized units, supported by external fabric and trims partners, our hard work, resilience and unwavering commitment continue to drive quality, people and our valued buyers.

“ Every Challenge Made Us Stronger, Every Opportunity Made Us Better.

## THREE COMPANIES

## ONE VISION

## A STRONGER TOMORROW

### STRATEGIC ADVANTAGES FOR BUYERS

 **FULL-CYCLE INTEGRATION**  
Direct alignment across design, production, and finishing eliminates third-party bottlenecks, ensuring strict quality control and reliable delivery timelines.

 **SPECIALIZED R&D & PROTOTYPING**  
Dedicated sampling lines at SA Moon Fashions combined with the R&D/Lab facility at Denim Process Limited enable rapid sample turnaround and custom fabric treatments.

 **BALANCED CAPACITY**  
Scalable manufacturing infrastructure capable of handling over 500,000 monthly garment units alongside high-capacity wet-processing units.

### WHY PARTNER WITH US?

✓ End-to-End Solution – From fabric to final finish  
✓ Strong Infrastructure & Modern Machinery  
✓ Experienced Management & Skilled Workforce  
✓ Commitment to Quality, Compliance & Sustainability  
✓ On-Time Delivery with Competitive Pricing  
✓ Long-Term Partnership for Mutual Growth

**QUALITY**  
Everything we do

**SUSTAINABILITY**  
For a better tomorrow

**PEOPLE**  
Our greatest asset

**INNOVATION**  
Through continuous improvement

**GLOBAL PARTNERSHIP**  
Growing together

**TOGETHER**  
**WE MAKE POSSIBLE**

# COMBINED STRENGTH. COMPLETE SOLUTIONS.

DESIGN • DEVELOP • MANUFACTURE • FINISH

With integrated capabilities in garment manufacturing and washing & finishing we deliver end-to-end solutions with superior quality, efficiency and reliability.

## OUR COMBINED CAPABILITIES

### GARMENT MANUFACTURING

- Advanced production lines
- Skilled workforce
- Strict quality control
- Wide product range (woven & knit)

### WASHING & FINISHING

- Modern washing, drying and finishing facilities
- Wide range of washes and effects
- Premium look and feel

### END-TO-END SOLUTIONS

- From fabric to final shipment
- Sourcing and development support
- Flexible production & delivery
- Everything under one roof

### IN-HOUSE LAB & TESTING

- Fabric & garment testing
- Color fastness and performance testing
- Compliance with international standards
- Support for R&D and new development

## WHY PARTNERS CHOOSE US

### CONSISTENT QUALITY

International standards and strict quality assurance at every step.

### ON-TIME DELIVERY

Efficient planning and strong production capacity ensure reliable lead times.

### COMPETITIVE ADVANTAGE

Cost-effective solutions without compromising on quality.

### LONG-TERM PARTNERSHIP

We grow together with transparency, trust and mutual success.

### RESPONSIBLE & ETHICAL

Committed to compliance, safety, and the well-being of people and planet.

## OUR CORE STRENGTHS

### ADVANCED PRODUCTION LINES

High efficiency lines for woven & denim products.

### IN-HOUSE LAB & TESTING

Fabric & garment testing for assured performance.

### WASHING & FINISHING EXPERTISE

Wide range of washes and finishing techniques with latest technology.

### STRONG INFRASTRUCTURE & CAPACITY

Scalable production capacity to meet bulk orders with consistent quality.

### EXPERIENCED MANAGEMENT TEAM

Industry experts driving operational excellence and innovation.

### GLOBAL COMPLIANCE

Adherence to international standards (ISO, BSCI, OEKO-TEX, etc.) and buyer requirements.

“ Our growth is not only about expanding capacity – it is about continuously improving the way we **create value** for our buyers. ”

FABRICS  
PEOPLE  
POSSIBILITIES

TURNING FABRIC  
**INTO FASHION**  
FOR A BETTER TOMORROW

# CORE CAPABILITIES

INTEGRATED SOLUTIONS FOR GLOBAL FASHION

## Woven Garment Manufacturing

High-quality garments for global brands

## In-House Garment Laundry & Finishing

Complete finishing solutions under one roof

## Denim & Twill Garment Development

From concept to bulk production

## Fashion Wash & Garment Effect Development

Innovative and sustainable wash techniques

## Product Development & Sampling

Trend-driven design and quick turnaround

## Advanced Cutting & Sewing Operations

Precision, efficiency and skilled workforce

## Laundry R&D & Wash Development

Continuous innovation for new effects

## Quality Assurance & Quality Control

Global standards, customer compliance

## Buyer & Supplier Coordination

Strong collaboration for smooth execution

## Compliance-Focused Manufacturing

Ethical, safe and sustainable operations

FABRICS  
PEOPLE  
POSSIBILITIES

# PRODUCTS & CORE CATEGORIES

ENGINEERED FOR TODAY. STYLED FOR TOMORROW.

Our facilities specialize in structured, casual, and utility apparel engineered to meet rigorous international technical specifications. We offer a diversified range of woven and denim products, combining functionality, fashion and sustainability to serve global brands.

## OUR PRODUCT STRENGTHS

- Product development & sampling
- Fashion-led designs with technical expertise
- Consistent quality across bulk production
- Sustainable and responsible manufacturing
- Flexible production for small and large orders
- Compliance with global buyer standards

## DENIM PRODUCTS

TIMELESS STYLE.  
BUILT STRONGER.

### 5-POCKET DENIM

- Menswear, womenswear and kids' jeans
- Available in rigid, comfort-stretch and high-recovery fabrics
- Multiple fits: skinny, slim, regular, relaxed, loose
- Various washes and finishes

### DENIM SHORTS & SKIRTS

- Fashion and casual styles
- For men, women and kids
- Customized washes and detailing

### DENIM JACKETS & OUTERWEAR

- Classic and fashion-forward designs
- Trucker jackets, overshirts and utility styles
- Various fabric weights and washes

## WOVEN PRODUCTS

VERSATILE STYLES.  
FOR EVERY SEASON.

### CHINOS & CASUAL BOTTOMS

- Men's, women's and kids' trousers
- Enzyme washed, garment-dyed and stretch options
- Chino pants, cargo pants, joggers and utility bottoms
- In various fabrics: twill, canvas, ripstop, sateen

### WOVEN TOPS & OVERSHIRTS

- Casual shirts, flannel shirts, poplin shirts
- Corduroy overshirts and shackets
- Workwear and utility jackets
- Available in checks, solids, yarn-dyed and printed fabrics

### DRESSES & FASHION STYLES

- Women's casual dresses, skirts and jumpsuits
- Trend-based seasonal collections
- Lightweight and mid-weight fabrics
- Custom design and development support

## FABRIC RANGE

- Denim (Rigid, Stretch, Super Stretch)
- Twill, Canvas, Ripstop
- Poplin, Oxford, Flannel
- Corduroy, Sateen, Tencel, Linen Blend
- Organic, Recycled and Sustainable Fabrics (on request)

## FINISHING OPTIONS

- Enzyme Wash
- Stone Wash
- Garment Dye
- Chemical & Vintage Wash
- Special Effects (Bleach, Tint, Spray, Coating)
- Softener, Anti-crease, Anti-pilling (as required)

## KEY MARKETS

- Europe
- USA & Canada
- UK
- Australia
- Middle East
- Global Fashion Retailers & Brands

## WHY OUR PRODUCTS STAND OUT

### TREND-DRIVEN PRODUCTS

On-trend styles to meet evolving market demands. Fashion-led with technical precision.

### CUSTOM DEVELOPMENT

Dedicated product development and sampling support for faster time to market.

### CONSISTENT QUALITY

Strict quality control at every stage, from fabric to final garment.

### SUSTAINABLE OPTIONS

Eco-friendly fabrics and responsible manufacturing practices.

### FLEXIBLE SOLUTIONS

Scalable production for both small and large orders with reliable delivery timelines.

*Together  
We Make  
Fashion Possible*

FROM FABRIC TO FASHION – WE CREATE VALUE TOGETHER

# OUR MACHINERY & INFRASTRUCTURE

MODERN TECHNOLOGY | HIGHER PRECISION | SUPERIOR QUALITY

We utilize modern, high-performance machinery and well-equipped facilities to ensure precision, efficiency and consistent quality in every stage of our production.

**FASHION  
WITHOUT BORDERS**  
PEOPLE | PLANET | PROGRESS

## CUTTING ROOM SECTION

Precision Cutting for Higher Efficiency

01

### Auto CAD (Gerber Plotter)

- Digital pattern design & grading
- High-precision marker planning
- Reduces fabric wastage

02

### Auto Fabric Spreader (Layer Machine)

- Tensionless fabric spreading
- High efficiency & accuracy
- Ideal for multi-layer cutting

03

### CNC Automatic Cutting Machine (Gerber)

- High-speed, precise cutting
- Suitable for complex patterns
- Maximizes productivity

04

### Fabric Inspection & Relaxation Machine

- Detects fabric defects
- Shade sorting & measurement
- Fabric relaxation before cutting

05

### Band Saw & Fusing Machine

- Accurate curved cutting
- Fusing for collars, cuffs & plackets
- Consistent high-quality output

## SEWING ROOM SECTION

Advanced Sewing Technology for All Products

01

### Single Needle Lockstitch Machine

- High-speed lockstitching
- Consistent stitch quality
- Suitable for light to heavy fabrics

02

### Overlock (Safety Stitch) Machine

- 3/4/5 thread overlock
- Clean and durable seam finish
- High-speed performance

03

### Flatlock Machine

- For sportswear & activewear
- Soft and stretchable seams
- Premium finish

04

### Cover Stitch Machine

- Hemming and decorative stitching
- Ideal for knit garments
- Enhances durability and appearance

05

### Computerized Buttonhole Machine

- Accurate sizing (round, eyelet, keyhole)
- Multiple styles
- High productivity

06

### Automatic Button Sewing Machine

- Fast and precise
- Multiple button sizes
- Reduces manpower

## FINISHING & QUALITY SECTION

Perfect Finishing, Safer Products

01

### Vacuum Pressing & Steam Finishing

- Professional garment pressing
- Vacuum-assisted with steam
- Enhances garment form and appearance

02

### Pull Test Machine

- 100% metal safety verification
- Confirms strength of trims & components
- Digital reporting system

03

### Needle Detector

- Detects broken needles
- Prevents needle-related incidents
- Ensures customer safety

04

### Garment Finishing Equipment

- Steam iron, vacuum table, spotting table
- Ensures neat and premium finish
- Suitable for all garment types

05

### Final Inspection & Packing

- Quality check, measurement & defect sorting
- Barcode & carton labelling
- Ready for shipment

## SUPPORTING EQUIPMENT & UTILITIES

Reliable Support for Smooth Operation

### Air Compressor

- Stable air supply
- Supports multiple machines
- Ensures smooth operation

### Generator (Backup Power)

- Uninterrupted production
- Reliable power supply
- Minimizes downtime

### Steam Boiler

- Steam supply for pressing & finishing
- Consistent temperature
- Supports efficient production

### Water Treatment System

- Clean water for processing
- Reduces maintenance cost
- Environmentally responsible

### Air Dryer

- Removes moisture from air
- Protects machines
- Improves air quality

## OUR COMMITMENT

**QUALITY FIRST**  
Quality is not an act,  
it's our habit.

**TEAMWORK**  
Stronger together  
for better results.

**SUSTAINABILITY**  
Responsible today  
for a better tomorrow.

**GLOBAL VISION**  
Delivering value  
across the world.

*Together  
for a Better  
Tomorrow*

01

## FABRIC INSPECTION

- 4-Point System (ASTM D3990) for defect evaluation
- Max 28 points per 100 sq. yds (or as per buyer AQL)
- Color fastness: ISO 105 (wash, rubbing, perspiration, light)
- Dimensional stability: ISO 6330 (shrinkage)
- GSM tolerance:  $\pm 3\%$
- Fabric construction, shade and hand feel verification

02

## TRIMS & ACCESSORIES EVALUATION

- Compliance with OEKO-TEX® Standard 100
- REACH regulations for chemical safety
- Pull test: 90 N for 10 seconds (snap buttons / zippers) per ASTM D7142
- Nickel-free hardware verification
- Dimensional and visual inspection (size, color, finish)
- Brand compliance & approved supplier list (ASL)

03

## CUTTING

- CAD/CAM automated cutting for high precision
- Computerized marker efficiency: 85%+ utilization
- Ply-height control (max 100–120 layers)
- Blade sharpness monitoring
- Vacuum cutting table to prevent fabric shift
- Critical notches, drill holes and pattern matching

04

## CUTTING QUALITY CHECK

- Bundle inspection with shade-sorting bands
- Shade grading: 555 system (spectrophotometer,  $\Delta E \leq 1.0$ )
- Cut part measurement vs. approved pattern
- Notch, drill, and label placement verification
- Defect-free bundling with identification tags

05

## IN-LINE QUALITY CHECK

- Traffic Light System (TLS) / Statistical Process Control (SPC) for real-time tracking
- SPI (Stitches Per Inch) checks
- Seam strength & tension monitoring
- Component alignment and construction accuracy
- In-line measurement checks at critical operations
- Immediate corrective action for any deviation

06

## 100% END LINE CHECK

- 100% visual inspection of each garment
- Measurement as per size chart (all critical points)
- Check for open seams, skipped stitches, loose threads
- Thread trimming and spot cleaning
- Workmanship, labeling, and trim positioning
- Rejects are reworked and re-inspected

07

## PRESSING QUALITY CHECK

- Calibrated iron temperature per fabric type (e.g. Cotton 180–200°C, Polyester 150–170°C)
- Avoidance of shine marks / glaze
- Seam flattening and shape retention
- Final measurements after steaming
- Clean and presentable finish
- Use of silicone-free pressing aids

08

## FINAL QUALITY CHECK

- AQL sampling as per ISO 2859-1 / ANSI/ASQ Z1.4
- Standard AQL: 1.5 for Major defects
- Standard AQL: 4.0 for Minor defects
- Appearance, measurement, workmanship, functionality and safety check
- Final packing check (size ratio, carton, labeling)
- Approval based on buyer's specific AQL (if different)

09

## INTERNAL AUDIT & PRE-SHIPMENT

- Pre-shipment audit compliance
- ISO 9001 Quality Management System
- Line-wise and process-wise audit reports
- Digital audit reporting with traceable CAPA (Corrective Action & Preventive Action)
- Verification of packing, metal detection and container loading
- Final approval before shipment

## METAL & NEEDLE DETECTION PROTOCOLS

- 9-point metal/needle detection (before packing)
- Dual-head conveyor needle detectors
- Sensitivity: 1.0 mm ferrous sphere
- 1.5 mm non-ferrous, 2.0 mm stainless steel (or as per buyer requirement)
- All garments pass through detection
- Rejection and re-scan protocol for any alarm

## TRACEABILITY & DIGITAL QA

- ERP/MES integrated QA tracking
- Real-time line-wise audit performance
- Digital dashboards (buyers can log in)
- Defect trend analysis and reporting
- Batch-wise traceability (fabric to finished goods)
- CAPA tracking and closure

## OUR KEY CERTIFICATIONS

# SOME FAST FACTS

Key strengths that drive our performance and create value for our buyers.

**FASHION  
WITHOUT  
BORDERS**

PEOPLE • PLANET • PROGRESS

## IN-MARKET REPRESENTATIVE

- Dedicated in-market representatives to support our buyers.
- Assist with product development, sourcing and quick decision making.
- Ensure clear communication and fast response.

## DEVELOPMENT & TRIMS

- Strong product development team with trend analysis and design support.
- Wide range of trims & accessories sourcing at competitive cost.
- Provide innovative and value-engineered solutions while maintaining quality.

## STRONG PARTNERSHIPS

- Long-term partnerships with reliable mills and suppliers for both twill & denim and non-denim fabrics.
- Assured material availability and consistent quality.
- Collaborative approach to meet buyer requirements.

## OVER DYE FINISHING

- In-house over dye finishing capabilities (garment dye, piece dye, and special washes).
- Wide range of shades and wash effects to meet latest fashion trends.
- Consistent quality with reliable color matching.

## SUPPORT SMALLER ORDERS

- Flexible production planning to support small and medium orders.
- Ideal solution for sampling, test runs and new product categories.
- Same level of quality and attention despite order size.

## SAMPLING & DEVELOPMENT

- Dedicated sample room with experienced technicians.
- Quick turnaround time for samples.
- Development and test runs as part of our normal business model.
- Close coordination with buyers for fit, fabric and wash approvals.

## QUALITY ASSURANCE

- Comprehensive Quality Assurance and Quality Control at every stage (fabric to final).
- AQL-based inspection system.
- In-line, end-line and final audit processes.
- Committed to deliver products that meet international standards and buyer specifications.

**QUALITY**  
Driven by Standards

**RELIABILITY**  
Built on Trust

PEOPLE • PLANET • PROGRESS

TRUSTED MANUFACTURING PARTNER FOR A BRIGHTER TOMORROW

## 01 | CONSISTENT QUALITY

- Adherence to international standards
- Structured QA/QC system
- AQL-based inspection at every stage
- Focus on right first time and continuous improvement

## 02 | COMPETITIVE VALUE

- Efficient production and cost-conscious execution
- Strong sourcing partnerships for fabrics and trims
- Optimized planning and resource utilization
- Best value without compromising quality

## 03 | RELIABLE DELIVERY

- Coordinated planning from sampling to shipment
- Real-time production visibility
- On-time shipment execution
- Strong logistics partnerships
- Commitment to meeting buyer deadlines

## 04 | FLEXIBLE & SCALABLE MANUFACTURING

- Woven and denim manufacturing capabilities
- Quick and efficient sampling
- Flexible to meet changing market demands
- Small batch runs to large volume production

## 05 | INTEGRATED DEVELOPMENT & FINISHING

- Product development and design support
- Sampling and technical development
- Garment manufacturing
- In-house washing and finishing (Specialized denim processing)
- Innovative solutions for trend-right products

## 06 | RESPONSIBLE & COMPLIANT OPERATIONS

- Ethical workplace and fair labour practices
- Social compliance (BSCI, Sedex, etc.)
- Chemical and environmental controls (ZDHC, OEKO-TEX®)
